Notice of Commission Action
[34 CFR §602.26(e) – Sixty-Day Notice]

Date: November 6, 2026

From: Res Helfer, Executive Director

To: United States Department of Education
Appropriate Accrediting and State Agencies

Per 34 Code of Federal Regulations §602.26(e), when the Accrediting Commission of the Accrediting Council for Continuing Education & Training (ACCET) reaches a final decision to deny or withdraw the accreditation of an institution, the following information will be made available within 60 calendar days of the original decision to the Secretary, the appropriate state licensing or authorizing agencies, the appropriate accrediting agencies, and the public by means of the ACCET website:

a. a summary of the reasons for the agency's decision, and
b. any comments the affected institution may wish to make with regard to the decision; or
c. evidence that the affected institution was offered the opportunity to provide official comment.

At a special meeting on September 17, 2026, the Accrediting Commission of the Accrediting Council for Continuing Education & Training (ACCET) took the following action:

Accreditation Withdrawn:
EC Boston
1 Faneuil Hall Square, 4th Floor
Boston, MA 02109
Mr. Ingmar Albig, Head of Operations Malta, South Africa, Dubai, US

As detailed in the September 17, 2026, letter, the Commission's decision was based on the institution's failure to demonstrate compliance with Standard III.A. Financial Stability, which requires an institution to demonstrate "...[a] record of responsible financial management with resources sufficient to provide quality education, training, and student services and to complete the instruction of all enrolled students." Further, the Commission noted the institution's failure to notify ACCET in a timely manner of significant developments affecting its financial condition, operations, and ultimate closure. These developments directly affected currently enrolled students and occurred without a pre-planned transition strategy, teach-out arrangement, or other documented plan to facilitate program completion. The institution's failure to promptly communicate these material developments demonstrates a lack of appropriate oversight and transparency regarding circumstances that significantly affected its ability to fulfill its obligations to students, raising additional concerns regarding compliance with Standard II.A. Governance.

The institution did not appeal the Commission's decision. The denial was determined to be a final action in the October 5, 2026, letter, in which the institution was offered the opportunity to provide official comments regarding the decision to deny initial accreditation.

Should you have any questions or need further assistance, please contact the ACCET office at info@accet.org or 202-955-1113.

Sincerely,

Res Helfer
Executive Director
